IMPORTANT NOTICE! Not Suitable for Children Under 3 Years
Use a large work surface in a well lit room.
Try to avoid working over carpeted flooring.
Cover your worktop and any carpeted flooring with sheeting.
Debris from the modelling clay can cause staining to fabric surfaces.
Wear old clothing or an apron so it can get messy.
Ensure you pick up any debris so it doesn't get walked around your home.

Adult supervision required. Keep out of reach from children under 36 months. Small debris may prove a choking hazard.
Clean hands with a dry cloth and wash in warm soapy water.

1. Flip in all nose, mouth, eyes and ears hole pegs as shown. Please note that eyes are already hand and are marked with a 3 (left) or a 4 (right)

2. Make clay sausages and push them into cheek area. Flip to length. Blend to remaining muscle. Only the pegs show above.

3. When joining clay strips do not overlap. Cut or持久 to fit.
Roll out flat strips of 2mm thick clay. These strips represent the outer skin.

4. The first strip is applied from the centre of the head. Black lines show where clay strips are to be applied. Remove ear hole pegs and attach the ears.

5. Apply 2mm thick clay strips for the cheeks and chin as shown.

6. Apply clay strips to the top of the head. Cut strips to fit as shown. Cut any gaps that may remain.

7. Apply clay strips to the underside of the chin and neck. Cut small strips to fill any gaps that may remain.

8. Make 3 clay sausages. Apply to either side of the nose bridge and one under the nose as shown.

9. Using sculpting tools scrape the clay as shown to blend clay on to the nose and its mouldings.

10. Blend and spread the clay sausages onto the nose and face by using a finger to push and smooth the clay down the nose bridge.

11. Define nostrils and mouth as shown.

12. Scrape away clay to define mouth features.

13. Using your fingers smooth and blend away all seams and rough clay.

14. Shape eyes as shown.

15. Making the hat. Push shorter strip into top holes of card hat. Use that machinery arrow on underside of moulding points to top of hat.

16. Cut the ends of the hat band and tie with remaining two pegs of the shorter strip.

17. Locate and fit hat tube on gold hat rim.

18. Align the two lower holes of the hat tube with the holes of the golden rim. Push longer strip into holes with curved end at the bottom.

19. Move the T shaped tab of the hat lid under the top two clips on the inside of the hat tube.

20. Peel off adhesive tabs on the hat lid.

22. Peel off adhesive tabs on the hat lid.

23. Attach hat to head as shown.
